

Paris Disneyland, Never Alone

Ooooooh Mhmmm

Lay your head, down to bed
and let your slumber sweep your cares away
In your dreams, chase moon beams
all the way across the milky way
and as you rest, in the nest, that we made for you
we'll carress and keep you blessed
never alone for the whole night thru

go to sleep
don't you weep
tomorrow's gonna be
tomorrow's gonnna be
tomorrow's gonna be a brand new day

(music brake)

Oooh

and as you rest, in the nest that we've made for you
well carress and keep you bleessed
never alone for the whole night thru

go to sleep
don't you weep
tomorrow's gonna be
tomorrow's gonna be
tomorrow's gonna be a brand new day
