Paris Hilton, Paris Hilton

Excuse me I think I seen you on the dance floor
Excuse me I think there playin' one of our songs
I seen you you've been here a lot of times
And you've been on my mind cause baby your just so damn fine
What do you say
What will it take

To make you see that I'm not playin'

I want you

and I think you should know

I want you

and I wont let you go

Cause I'm the kind of girl who likes to tell you what I want in life

Get you right into things wont you like that anyway

I want you

so before you go home And you leave here alone I thought you should know I'm not playin'

I want you

and I think you should know

I want you

and I wont let you go

Cause I'm the kind of girl who likes to tell you what I want in life

Get you right into things wont you like that anyway

I want you

so before you go home And you leave here alone I thought you should know
