

Paris Hilton, Strip

Tell me what you like, what you need, what you want to be
Tell me who you are, who you are don't be afraid of me
Want you to strip. Strip down your defenses
Give you a tip, 'cause you're beautiful inside
Want you to strip, then we'll know the answers
We will unzip when we're of the same mind
There's more to you than this
I know the way you're bliss
I just want you to strip

I could be the one, be your love, could be your best friend
You could be the one to be the one you need to understand
Want you to strip.
Strip down your defenses
Give you a tip, 'cause you're beautiful inside
Want you to strip, then we'll know the answers
We will unzip when we're of the same mind

There's more to you than this
I know the way you're bliss
I just want you to strip

Go and leave, go on, don't come back from what you are tonight
You know I know the feelings flow
And you, you are my kind
Want you to strip down your defenses
Give you a tip, 'cause you're beautiful inside
Want you to strip, then we'll know the answers
We will unzip when we're of the same mind
There's more to you than this
I know the way you're bliss
I just want you to
I just want you yo
