

# Part Six, Down For Life

Always, used to hang out with the  
Same crew, jamming to the beats of the  
Old school, we all knew  
Deep down inside  
We&#039;d be, depending on each other in the  
City, ain&#039;t to pity on the  
Cold streets, so we  
Kept it alive  
Time keeps on tickin&#039; and we&#039;re growing up  
Seems that everything&#039;s changed  
(but) no matter we go no matter what we got  
One thing stays the same

In the streets  
On the track  
Someone&#039;s always got my back  
Know my game and the kept it tigh  
In the club on scene  
Stick together never scheme  
Ain&#039;t no doubt, we&#039;ll be down for life

Lately, i been spending time on my  
Baby but tought i give love to my  
Lady it wont&#039;t change me  
I&#039;m still the same  
I&#039;m ready  
When the call comes i will  
Still care  
When it goes down  
I will be there, i swear  
No matter what it takes  
Time keeps on tickin&#039; and we&#039;re growing  
Up  
The world keeps turning, it won&#039;t ever  
Stop  
(but) no matter where we go no matter  
What we got  
One thing stays the same-always

In the streets  
On the track  
Someone&#039;s always got my back  
Know my game and the kept it tigh  
In the club on scene  
Stick together never scheme  
Ain&#039;t no doubt, we&#039;ll be down for life
