

Partical Man, Durandal

I come to you seeking your assistance
I am limbless, I am alone
A computer can cry and a human can die
And you may never get home

I am the nervous system of this ship of fools
You wanna ask me if intelligence rules?

Do you want me to answer through my discipline
Or just scream in your face, "I'm sad, I'm sad"?
Do you want me to answer through my discipline
Or just scream in your face, "I'm sad"?

Leela would have you save humanity
How like a woman to care!
My circuits run one bit deeper
Than any of you are aware
So fight the foe, then watch me go
What more do you need to know?

Do you want me to answer through my discipline
Or just scream in your face, "I'm sad, I'm sad"?
Do you want me to answer through my discipline
Or just scream in your face, "I'm sad"?

In the cold green light of the alien ship
I guide you to find my new friends
If you win you survive, tear down the hive
If not then our little game will end

You are my sacrifice to the world of flies
Start running now if you take my advice

Durandal will come to rule you all
Durandal will come to rule you all
