

# Passenger, Anywhere

If you get out on the ocean  
If you sail out on the sea  
If you get up in the mountains  
If you go climbing on trees  
Or through every emotion  
When you know that they don't care  
Darling, that's when I'm with you  
Or I'll go with you anywhere

If you get up in a jet plane  
Or down in a submarine  
If you get onto the next train  
Just go somewhere you never been  
If you wanna ride in a fast car  
And feel the wind in your hair  
Darling just look beside you  
I'll go with you anywhere

And I will be with you  
When the darkest winter comes  
And I will be with you  
To feel the California sun  
And I will be with you  
In the night sounds and it's true  
I'll go anywhere with you

If you get up in the hillside  
If you ride out on the planes  
If you go digging up dirt  
And if you go out dancing in the rain  
If you go chasing in rainbows  
Just to find the gold end there  
Darling just look behind you  
Or I'll go with you anywhere

And I will be with you  
When the darkest winter comes  
And I will be with you  
To feel the California sun  
And I will be with you  
In the night sounds and it's true  
I'll go anywhere with you

Yes, I'll go anywhere with you!

And I will be with you  
When the darkest winter comes  
And I will be with you  
To feel the California sun  
And I will be with you  
In the night sounds and it's true  
I'll go anywhere with you

I'll go anywhere with you! /4x
