Fight for the rights of every man

When it rain it pours, thunder and lightning
These cowards is trifling
They got me, watching for high jackers
Watching for terrorism, bet I ain't playin with 'em
The nine get 'em
It's horror when you don't know if you gone ever see tomorrow
Or your partner, maybe a loved one, maybe your auntie
Think you gone take from me, well then it's on g
Jesus is coming back, soon as he lay attack
I bust my rifle, I'll wave my bible
Crankin' my army up because we know what' up
They hit pentagon and now it's Babylon

[Chorus] (repeat 4x)

America, no country like it
America, let's get united

We all fightin
A couple cases of anthrax
Though I ain't sweatin
Me and my homies got army gadgets
No it aint magic
You bomb me, I bomb you

Pastor sucka, U.S Marines, Army, Navy on the same team
It's not a dream, its reality
Miseducated, to all casualty

Buddy we want you, dead or alive
And when we catch you, got a surprise
Fuck the Taliban, fuck the marathon
Sucka, fuck everything, and just let freedom ring
