

# Pat Green, All The Good Things Fade Away

Born lucky I guess  
Didn't hurt that I was in the right place, the right time too  
And the girl she was dandelion beautiful  
Damn, she was beautiful  
When the wind blows her like a bird  
And the petals on the flower fly away  
Sometimes it don't matter what you say

## CHORUS

All the good things fade away  
All the good things fade away

I found me a game out towards Shreveport  
Couple of days just hiding from the sun  
Good with the cards and good with the dice  
You could say I had a lucky little run  
Won it all and maybe just a little bit more today  
All the luck you have is just the bills you left unpaid

## CHORUS

Sure seems shitty to me there has to be such a thing as the good old days  
Someday, somewhere, my hair like my memories will all just fade out to gray  
Got it all right now and I just as soon keep it that way

## CHORUS (x2)
