## Pat Green, California

Hello, California Sure is strange to be here today What's a boy from down in Austin Doing in a city of angels anyway

So won't you come on out here with me Find out what you can and cannot see Maybe gain a new perspective Why we're so infected by our dreams

## Chorus

Yeah baby, I'll be out here dreaming
Thinking about the life we could have
You're back home in Texas
I'm stranded in Los Angeles
Wondering when is the next time I get to hold you
I just want to hold you

It's the sweetest kind of poison
Tickle you and take away your faith
Whiskey for a lifetime
Wreck your soul with the smallest little taste

## Chorus

I am just a guitar man who fell in love with you Times are good or bad, I take them all the same You could have some 9 to 5 man coming home to take your hand You know he's never gonna do

Is this the life I've dreamed of Or is this just the way it all went down But damn right I sure am happy A crazy piece of life I have found

## Chorus
