

# Pat Green, Long Way To Go (Headed Home)

You drink one for your memories  
You drink one for yourself  
You drink one for your family  
Last time you saw them was a long time ago

I sing one for the children  
You sing one for the miles  
You sing one for them pretty green eyes  
Im headed home baby - I got a long way to go

And sing me to sleep sweet city  
And let your highway be your lullaby  
With nothing in my pocket  
No fortune do I know  
Im headed home baby - I got a long way to go

Well you say a little prayer in the morning  
You pray for those you left behind  
Your heart starts to break as the sun goes down  
Im headed home baby - I got a long way to go

Sing me to sleep little darling  
And do that little dance for me  
Nothing in my pocket  
No fortune do I know  
Im headed home mama - I got a long way to go

I will be there by the morning  
And I dont know what makes me leave anyway, anyway, anyway

And God I miss you little darling  
And save that little dance for me  
With nothing in my pocket  
No fortunes do I know  
Im headed home baby - I got a long way to go

Its good to be home  
Its good to be home  
Im headed home baby - I got a long way to go
