

# Pat Green, My Little Heaven

can you help me out with something  
cause I feel a little sad inside  
did you turn me on for nothing  
are you sad or satisfied  
it was long before today  
that I felt you were slipping away

(chorus):  
and you cant change anything  
you cant change anyone  
you cant do nothing about the way I feel  
you can lay into me  
it wont change anything about the way I feel  
about my little heaven  
my little heaven

can I pay you some attention  
tell me would it be ok  
I'm a little impertioned  
And your picture perfectly  
And I don't think I could take it  
If I thought you were trying to fake it

(chorus)

if you want me baby I'll be there  
take me away

(chorus)
