

Pat McGee Band, Can't Miss What You Never Had

I went out walking and I got back from talking
To the man he's been running around
He's been around the way
And all the things I'm hoping for
all that I'm burning for
That's nothing ain't done before and nothing new to me

I'm sitting here thinking
Got myself drinking
Man I've been flying like I've been around the way
And all the bridges that I've burned before
Burned out a million more it's nothing ain't done before
And nothing new to me

Can't Miss what you never had (x4)

I went out walking
and I got back from talking
To the man I'm shining of
I've been around the way
All the bridges That I've burned before
And burned out about a million more it's nothing ain't done before
And nothing new to me

Can't Miss what you never had (x4) No!

I cmae back from thinking
Found myself drinking
On the one I've been preaching on single final day
And all te things that I'm hoping for
All that I'm burning for is nothing
Ain't done before and nothing new to me

I went out walking got back from talking
And the man I've been shining like been around the way
And all those bridges that I've burned before
Burned out a million more is nothing we've done before
And nothing new to me

Can't miss what you never had (x3)
