

# Pathos, Detonation

Comprimated state of minds, filling up your soul  
Gene's determined right or wrong, ancient times ago  
The battlefield war goes on, right inside your soul  
Systematic mind reclusion, disorder in control...  
The pressure is building up, detonations counting down  
Self destructing acts are planning, futures now in soiled  
Burning karma haunt your soul, euphoria take's control  
Warhead power burns your veins, filling up your soul...  
Cleanse your mind  
Cleanse your soul...  
Destination place unknown, history's coming close  
Twisted thoughts reveals the pain, discovering the legacy  
Shadows from a distant time, blocks the sun away  
The pressure is slowly building up, detonation's counting down...
