

# Pathos, Inhale

Rage, it's not easy to be left behind  
Let love flow, let it flush, let it take control  
Take control, you got to...  
Inhale - let your spirit go now  
Inhale - open up your mind now  
Breathe in - set your body free now  
Inhale - open up your arms now  
Time, only time can tell the truth you seek  
And brick by brick, tear it down - uninstall  
Take control, take control...  
Lost in your anger  
Unable to let life  
Inside you  
Let joy come inside  
Fill you up...  
Inhale, breathe in and feel god...  
Heart you're in my heart  
Life is a gift from god  
Don't let it slip away  
Don't throw it all away  
Soul, you're in my soul  
I'll never walk alone  
I'll never let you slip away  
I'll never let you go...  
Inhale - breathe in  
Reload and take control, control...
