

# Pathos, Mutation

We summon our inner powers  
We call on our hidden deeds  
Mutation of mind in order  
To muster the strength we need  
We travel our inner void  
A journey within our brain  
Projection of thoughts inside us  
The answer is still the same  
To live for the moment  
To live for one day  
To live for the moment  
This is the way  
Facing our own extinction  
We breed under sterile slides  
Perfection of race disorders  
The madman the crazy rides  
To live for the moment  
To live for one day  
To live for the moment  
This is the way  
Choose to live  
Evolution  
The way of life  
Revolution  
The will to fight  
Universe  
Recombine  
Then emerge
