

Pato Banton, Mama Nature

Surf rider!
Now all surfer one million gun salute
respect due might sound cute but a the truth.
Watch this man! Easy.

Mmm mama, mmm mama nature, mmm mama.
Mama Nature.

It's getting to a state of emergency
people believe me.
Look what we're doing to the land and seas
the plants and trees.
Take a look at the atmosphere
oh Lord! pollution everywhere.
Seems like some of us just don't care
while so many are living in fear.

Follow me now, follow me now!
Surf rider, and a so me say.
Surf rider, you better ride with care.
Surf rider, ung badeng.
Surf rider.

Now make we all get together through any kind of weather
united we can make this world a little bit better
we want all the people people people upon the land
to make a little contribution towards...

Now everybody is barling global warming
some of them a preach that the end is dawning
but through the trouble and the strife
as long as there is little life we must unite to make it alright.

Take a look at the atmosphere
oh Lord! pollution everywhere.
Seems like some of us just don't care
while so many are living in fear.
