

# Patrick Nuo, Radio Sun

She played me records that I've never heard  
I've never heard before  
And when she talks  
She sounds like Andrea Corr  
And I couldn't ignore what she said  
Tomorrow might be rainy again  
But I guess it's just a secret S.O.S. she sent  
She's my radio sun - my radio sun  
No one else can see  
She's my radio sun - my radio sun  
She's playin' her lovesongs only for me  
There's so much light inside her beautiful voice  
My unreachable choice number one  
She's my radio sun  
I'm drivin' with my eyes closed listen to her  
While she's tellin' the whole wide world  
that she loves Blur and I love her  
She is no less than perfect on my mind  
But I can hear a little pain behind her  
Laughing tonight  
I push the record button to  
Save every word of  
You sound so familiar like someone I once knew  
What are you tryin' to tell me with that song  
Don't tell me  
You play it for another one  
You play it for another one  
Cause you are my radio sun
