

Patrick Nuo, You Can Make Me Feel

I've been drinvin' all night
Going nowhere
Feelin' restless inside
The sky is full of stars
Don't wanna be alone again
I'm on my way and I won't leave it
You'll make my day yeah I can feel it
Tonight you're out somewhere
Don't wanna be alone again
Everybody knows what we're looking for
It's true love
And when I think about my situation
You can make me feel better
Everybody knows what we're looking for
It's true love
And when I think about my situation
You can make me feel better
I've been flyin' all night across the ocean
City of angels inside
A friend once did the same
He never came back again
So I went down
I think on third street
Entered a shop where you just
Knocked me off my feet
Ever since we met that day
You really made me wanna stay forever
Everybody knows what we're looking for
It's true love
And when I think about my situation
You can make me feel better
Everybody knows what we're looking for
It's true love
And when I think about my situation
You can make me feel better
And it feels so right
To be with you tonight
Let's just hold us tight
'Cause you're the one I'm looking for
Make me feel better baby
Everybody knows what we're looking for
It's true love
And when I think about my situation
You can make me feel better
Everybody knows what we're looking for
It's true love
And when I think about my situation
You can make me feel better
