

# Patti LaBelle, Joy To Have Your Love

I used to sing to an empty room,  
I was so lonely and so out of tune  
Then you came along and  
made my life a happy song

It's a joy to have your love  
Such a joy to feel your love  
Ever set me free  
cuz darlin' I can't be without you  
without you baby

I used to go to the show all alone  
I sat through it twice  
I just couldn't go home  
Then you came along  
and made my life a happy song

It's a joy to have your love  
Such a joy to feel your love  
Ever set me free  
Cuz darlin' I can't be without you  
Without you baby
