

# Patti LaBelle, Someone Like You

I've waited a lifetime,  
For someone just like you,  
Somebody who will take my hand,  
Someone who's warm and true,  
Romancing by candlelight,  
A touch from you thrills my heart,  
Say if you love me and it feels right,  
Nothing can keep us apart,  
All my life I've waited for someone like you,  
With a heart of gold,  
I always knew you would come my way,  
All my life I've waited for some like you,  
From now 'til the end of the time,  
That's how long I'll be loving you,  
Together we will live in paradise,  
A paradise made for two,  
All my prayers have been answered,  
And my dreams are reality,  
I feel complete whenever you're next to me,  
So I'm gonna hold on,  
I'll never let go, No, No,  
With a heart of gold, I always knew you would come my way,  
All my life I've waited for someone like,  
Everyday we'll make sunshine,  
Every night like the first time,  
Anything that's on your sweet mind,  
I'll make it happen for you and only you,  
Ain't no shame in my game,  
All my life I waited for you.
