

Patti LaBelle, You Saved My Life

Now and then,
I look where I've been,
It seem the good sometimes went wrong,
I see in YOU, the love that pulled me through,
The love that kept me strong...
You saved my life,
When drowning in a lonely sea,
You reached out and rescued me,
You save my life,
With love You saved my life,
Yo've been there,
When no one dared to care,
Somehow you shield me from all harm,
A guiding light, in my darkest night,
My shelter in the storm...
You saved my life,
When all around was sinking sand,
You were there with out stretched hands,
You saved my life,
With love you saved my life,
With nothing to gain, you bared my pain,
From the start, showed me love from the heart,
And when all else failed, on faith in you I held,
Yes my life, my soul, I owe you...
I... saved my life,
It took time, but now I see,
Your love supplies all me needs,
You saved my life,
With love YOU saved my life.
