

# Patti Page, Most People Get Married

When the kisses get so long that you can't catch your breath  
And the huggin' gets so strong that it's gotcha scared to death  
Most people get married (married)  
That's what they do-o-o  
Most people get married (married)  
And that's what I wanna do with you

When you only wanna walk (let's walk) together  
Only wanna talk (let's talk) together  
Only wanna touch (let's touch) too much  
You never wanna say "Good night"

Most people get married (married)  
That's what they do-o-o  
I-I-I wanna get married (married)  
An' I only wanna do it to you

When you light up like a flame each time your baby calls  
And the way he says your name has gotcha climbin' walls  
Most people get married (married)  
That's what they do-o-o  
Most people get married (married)  
And that's what I wanna do with you

When you're feelin' in your heart (doo-wop), what I feel  
Reelin' in your heart (doo-wop) like I reel  
An' you wanna shout (you shout) "Look out,  
Somethin's gotta give tonight"

Most people get married (married)  
That's what they do-o-o  
I-I-I wanna get married (married)  
An' I only wanna do it to you

I-I-I wanna get married  
An' I hope you wanna do it, too
