

# Patty Loveless, I Try To Think About Elvis

(Gary Burr)

oh i'm sorry i forgot where i was  
I try to think about Elvis  
Memphis  
Oprah in the afternoon  
I try to think about palm trees  
Fig leaves  
The creature from the black lagoon  
I try to think about high heels  
And good deals  
Anything to get me through  
I just can't concentrate  
You're all I think about these days

I try to contemplate the cosmos  
What goes  
Round and round the sky at night  
I try to think about champagne  
Freight trains  
Slowly rolling out of sight  
I try to focus on the headlines  
Street crimes  
Everytime I think I might  
I just can't concentrate  
You're all I think about these days

My mind wanders where it will  
When it settles right on you  
I forget what I should say  
I forget what I should do

My mind wanders where it will  
When it settles right on you  
I forget what I should say  
I forget what I should do

come on patty get it together

I try to think about Shakespeare  
Leap year  
The Beatles or the Rolling Stones  
I try to think about hair-do's  
Tattoos  
Sushi bars and saxophones  
I try to think about the talk shows  
New clothes  
But I guess I should have known  
I just can't concentrate  
You're all I think about these days  
You're all I think about these days
