

# Patty Loveless, If You Think

(Kostas)

If you think I don't care  
Just because I'm not there  
Then my love  
You had better think again

And if you think  
There's someone knew  
Who can take the place of you  
Then my love  
You had better think again

You live deep inside of me  
As deep as I can see  
There's no denying  
I guess I'm feeling kind of blue  
I'm lonely without you  
Until we meet again

If you think my love will change  
Just because you're away  
Then my love  
You had better think again

Send me a letter everyday  
Send your love my way  
And keep me smilin  
Tell me all the things you do  
And I will do it too  
Until we meet again

If you think I don't care  
Just because I'm not there  
Then my love  
You had better think again

Then my love  
You had better think again

Then my love  
You had better think again
