

Patty Loveless, Try To Think About Elvis

Oh i'm sorry I forgot where I was

I try to think about Elvis Memphis Oprah in the afternoon
I try to think about palm trees fig leaves the creature of the black lagoon
I try to think about high heels and good deals anything to get me through
I just can't concentrate you're all I think about these days
I try to contemplate the cosmos what goes round and round the sky at night
I try to think about champagne freight trains slowly rolling out of sight
I try to focus on the headlines street crimes everytime I think I might
I just can't concentrate you're all I think about these days
My mind wanders where it will when it settles right on you
I forget what I should say I forget what I should do
[steel - fiddle]
My mind wanders where it will when it settles right on you
I forget what I should say I forget what I should do

Ah come on Patty get it together

I try to think about Shakespeare leap year the Beatles or the Rolling Stones
I try to think about hairdo's tattoos Sushi bars and saxophones
I try to think about the talk shows new clothes
But I guess I should have known
I just can't concentrate you're all I think about these days
You're all I think about these days
