

Paul Brandt, Add 'em All Up

(Paul Brandt/Rick Bowles/Chris Farren)

If you took all the feelin's that everybody's feelin'
In love tonight
All the slow dances and lingerin' glances
In the pale moonlight
All the stolen kisses and sweet nothin' whispers
Straight from the heart
Put 'em end to end and then you'd have a pretty good start

And add 'em all up
Add 'em all up
It's perfectly clear what you got there
Wouldn't be near enough
Add 'em all up
Add 'em all up
Just take the bottom line
Multiply by five, it's larger than life
That's how I'd describe our love

Take every heart beatin' that's a reelin' from the feelin'
Of a true love found
Every angel singin', every church bell ringin'
Out glory bound
Every new beginnin', every happy endin'
>From the silver screen
Put 'em all together, it'll never match you and me

And add 'em all up
Add 'em all up
It's perfectly clear what you got there
Wouldn't be near enough
Add 'em all up
Add 'em all up
Just take the bottom line
Multiply by five, it's larger than life
That's how I'd describe our love

Add 'em all up
Add 'em all up
It's perfectly clear what you got there
Wouldn't be near enough
Add 'em all up
Add 'em all up
Just take the bottom line
Multiply by five, it's larger than life
Not to be denied on any given night
That's how I'd describe our love
Oh baby it's a fact this love we have
Is off the map, bigger than that
That's how I describe our love
