

# Paul Brandt, If This Isn't Love

(Paul Brandt/Gene Pastilli)

If this isn't love  
What else could it be  
What's happenin to you  
What's happenin to me

If this isn't love  
What else is so strong  
Or feels half as good  
Or lasts half as long

Now I am not an expert  
On matters such as this  
Romance has always left me in the dark  
But with each brush of your sweet touch  
And every lingering kiss  
I think that cupid's finally found his mark

Could it be a bug  
Or maybe the flu  
That's goin around  
You say that you've got it too

If this isn't love  
What else could it be  
If this isn't love  
Then it's alright with me  
If this isn't love  
Then it's alright with me
