

Paul Brandt, Really And Truly

If a fallin' heart could make a sound
Then you would hear mine for miles around
If what I feel became a light
Then there would be no darkness in this night
They say you know when it's real
Baby I can tell you it's true

CHORUS:

'Cause really and truly
I think we should be
Together like this for as long as we both are
Livin', breathing'
I'll be everything you need and more
I'll be really and truly yours

If love's a gift to give away
For you, I swear, it'd be Christmas every day
If love could keep you free from harm
The safest place for you is in my arms
And if I reveal too much too soon
Well, I'm just bein' honest with you

CHORUS

Have me, hold me
In that sweet moment
It'll be for sure
I'll be really and truly yours
