

Paul Brandt, Take It Off

(Paul Brandt)

If you got worry on your mind
Pain that's piling up inside your heart
Take it off

If the piece that you've been tryin' to find
Is held down by a load of lies and scars
Take it off
Take it off

There's a place that we all try to hide
Covered up with guilty pride we want
Take it off

Just leave your crooked past behind
Look straight into my lovin' eyes and let's talk
Take it off

Now baby I ain't talking
About sexuality
Just close your eyes and lie your naked heart
Down next to me
Let's wrap ourselves in truth and honesty
Take it off

Baby I ain't talking
About sexuality
Just close your eyes and lie your naked heart
Down next to me
Let's wrap ourselves in truth and honesty

If the pressure's building in on you
I'll be there to help you through, I'll try
To take it off
