

Paul Brandt, That's What I Love About Jesus

I've had people say
That I'm a self made man
I'd like to set the record straight
Because I never could have planned
The way my life has gone
And the blessings I've received
It had nothing to do with me
Now I love to sing and play
And travel with these songs
But I've got to give the praise
Back to where it all belongs
Before I was even born
He knew what my job would be
He made me who I am for all the world to see

(Chorus)
That's what I love about Him
That's why I talk about Him
And friend I'd be lost with out Him
He makes this world make sense to me
And He let his life end
Just so he could be my friend
That's what I love about Jesus

Now it doesn't make me perfect
Or any better than you
And yes, He is my crutch
And He's my wheelchair too
Cause I can't do it on my own
He gives me all my strength
His power helps me make it through each day

(Chorus)
So if you hear this song
You've got to make a choice
To just keep rolling along
Or to listen to His voice
Since I gave my heart to Him
I have been set free
Yeah, He's made all the difference to me

(Chorus)
