

Paul Brandt, When You Call My Name

give me a moment
to try and explain it
at how its changed
the man that i am
life has a way
when you try to arrange it
of making a fool of the best laid plans
yes what i am trying to say
is you took me by surprise
one word is all that it takes
and forever is on my mind
it happens every time

i hear the sweetest sound
my world stops turning 'round
like im on holy ground
when you call my name
it sets the sky on fire
burning with my desire
stronger deeper higher
when you call my name

the way that it moves me
its simply amazing
yes somehow its seems
much bigger than words
when you call my name
angels start singing
the most beautiful sound
that i ever heard
and it starts all over again
this feeling deep inside
a blessed chain of events
a heaven sent design
it happens every time

i hear the sweetest sound
my world stops turning 'round
like im on holy ground
when you call my name
its sets the sky on fire
burning with my desire
stronger deeper higher
when you call my name

when you call my name
high
when you call my name
who
it happens every time
i hear the sweetest sound
my world stops turning 'round
like im on holy ground
when you call my name
its sets the sky on fire
burning with my desire
stronger deeper higher
when you call my name

(i hear the sweetest sound)
(my world stops turning 'round)
Call my name Call my name
(like im on holy ground)
when you call my name

its sets the sky on fire
burning with my desire
stronger deeper higher
when you call my name
