

Paul Gilbert, Better Chords

No matter what you do
I've got better chords than you
There is nothing left to prove while I'm alive

No matter what you say
I've got better chords to play
So just beg for my mercy
Apologize

But if you want something good to sing
You've come to the right place cause I'm the king

No matter what you've heard
I will use that major third
To make better chords
Better chords
Better, Better, Better,
Better, Better, Better,
Better chords than you
