

# Paul Gilbert, Down To Mexico

If my situation gets out of control  
I could run down to Mexico  
If I need a place to do some layin' low  
I could run down to Mexico

Sun is always in the sky  
Bands are always hoppin'  
You can shake it all you want  
Never feel like stoppin'  
Think I'll give my mind a rest and save my soul  
I will run down to Mexico

If you don't have anywhere left to go  
You could run down to Mexico  
If you found the answer but still you don't know  
You could run down to Mexico

You don't need to buy your friends  
They're just glad to meet ya  
Maybe even meet yourself  
A friendly senorita  
If you never try it you will never know  
You could run down to Mexico

Take me a vacation from the freezing cold  
Gonna run down to Mexico  
Should have left a long, long time ago  
Gonna run down to Mexico

Sun is always in the sky  
Bands are always hoppin'  
You can shake it all you want  
Never feel like stoppin'  
If you never try it you will never know  
You could run down to Mexico
