

Paul Gilbert, Down To Mexico

If my situation gets out of control
I could run down to Mexico
If I need a place to do some layin' low
I could run down to Mexico

Sun is always in the sky
Bands are always hoppin'
You can shake it all you want
Never feel like stoppin'
Think I'll give my mind a rest and save my soul
I will run down to Mexico

If you don't have anywhere left to go
You could run down to Mexico
If you found the answer but still you don't know
You could run down to Mexico

You don't need to buy your friends
They're just glad to meet ya
Maybe even meet yourself
A friendly senorita
If you never try it you will never know
You could run down to Mexico

Take me a vacation from the freezing cold
Gonna run down to Mexico
Should have left a long, long time ago
Gonna run down to Mexico

Sun is always in the sky
Bands are always hoppin'
You can shake it all you want
Never feel like stoppin'
If you never try it you will never know
You could run down to Mexico
