

# Paul Gilbert, Every Hot Girl Is A Rockstar

Who's that girl with the dark sunglasses  
Who's that girl with the hat pulled low  
She can't disguise  
While she tries to advertise  
The secret of what's hidden there below

Cause every hot girl is a rockstar  
When she's wearing those clothes  
Yeah everybody knows that  
Every hot girl is a rockstar  
Yeah and she just laughs  
If you want an autograph  
Then gets back in her car  
Like a hot girl rock and roll star

Who's that girl with the hot new boyfriend  
Who's that girl always on the telephone  
She's telling lies and won't he be surprised  
To find out that she can't be left alone

Cause every hot girl is a rockstar  
When she's wearing those cloths  
Yeah everybody knows that  
Every hot girl is a rockstar  
Yeah and she just laughs  
If you want an autograph  
Then gets back in her car  
Like a hot girl rock and roll star

I never met her, never met her, never met a woman here before  
I'm gonna get her, gonna get her, gonna get over the fear before  
The dress she wore gets hung on someone else's door

Who's that girl just changing her direction  
Who's that girl just look me in the eye  
She's not to blame  
I know it's hard to turn down fame  
The drug we take when we need to get high

Cause every hot girl is a rockstar  
When she's wearing those clothes  
Yeah everybody knows that  
Every hot girl is a rockstar  
Yeah and she just laughs  
If you want an autograph  
Then gets back in her car  
Like a hot girl rock and roll star
