Paul Gilbert, Friday Night (Say Yeah)

It's Friday night
It's much too late
I know we missed
The subway train
Don't want to go
Home anyway
Just say yeah

I know we've had Too much to drink I'd call my dad But I know what he thinks So won't you stay Oh, don't go away Just say yeah

I feel so good sitting here next to you And knowing that you're mine The music's good, the lights are low But I can still see You're sure enough looking fine

It's Friday night At least it was It must have gone With my beer buzz But you could stay Oh don't go away Just say yeah
