

# Paul Gilbert, Second Loudest Guitar In The World

Have you heard?  
The second loudest guitar in the world  
Been tryin' and it finally occurred  
All wrong  
The shred-heads like it  
But it dosen't fit the song I play  
The chords McCartney used in yesterday  
Then changed them to make music my own way  
When some girl  
Pissed my off so much  
That I used a heavy pick  
And played the loudest guitar in the world
