In 1965 Vietnam seemed like just another foreign war  
but it wasn't  
It was different in many ways, as so were those that did the fighting  
In World War II the average age of the combat soldier was 2  
In Vietnam he was 19  
In ininininin Vietnam he was 19  
In ininininin Vietnam he was 19

The shooting and fighting of the past two weeks continued today  
25 miles north-west of Saigon

In Saigon a U.S military spokesman said today more than 700 enemy troops  
Were killed last week in that sensitive border area  
Throughout all of South Vietnam the enemy lost a total 2689 soldiers

All those who remember the war  
They won't forget what they've seen  
Destruction of men in their prime  
Whose average was 19

According to a Veteran's Administration study  
Half of the Vietnam combat veterans suffered from what Psychiatrists call  
Post-Traumatic-Stress-Disorder  
Many vets complain of alienation, rage, or guilt  
Some succumb to suicidal thoughts  
Eight to Ten years after coming home almost eight hundred thousand men  
Are still fighting the Vietnam War

None of them received a heroes welcome
