

Paul King, It's up to you

Some question the meaning
what it's worth
frustrations, position you can't reverse
the puppet string strangle in twisted fate
in dreamers this is known as a romantic state
But it's up to you what ou do
and who you think you are
it's up to you... upon my soul
Now everybody is label blind
everybody wants a Calvin Klein
the winter, the spring, the summer or the fall
they'll always convince ya that you just want more
Oh lord
Allah, and Buddha, and Jesus Christ
are happening guys and very wise
their stories often run deep
like faith and hope and Meryl Streep
Right...
