

Paul King, Slow motion

(So)

Nobody's better than anybody else
you can use me child
but don't confuse yourself
can't separate my body from the mood I'm in
I see things coming but I ain't rushing in
I want slow motion
I just want this thing to last
Don't ask if I'm happy or if I'm sad
don't ask where I'm going
or when I'm coming back
I'm careful with my trust and I never would abuse
but when you've been machine gunned
a single shot won't do
Just give me slow motion
I just want this thing to last
Down from my knees to my feet
it's on my lips going round my hips
I'm letting go kind of slow
so hold it down take it slow...
