

Paul McCartney, Fuh You

come on baby now
let me look at you
talk about yourself
try to tell the truth

I can stay up all night
try to crack your code
I can stay up all night
but I'd rather hit the road

on the night I met you
I was on the town
on the night I met you
I just want to know
how you feel
the word the love
is so proud and real
you make me wanna go out and steal
i just wanna fuh you!
i just wanna fuh you!

come on baby now
hel me work it aout
i don;t let you down

I can stay up all night
playing with your hed
I can stay up all night
but I'd rather hit the road

on the night I met you
I was on the town
on the night I met you
I just want to know
how you feel
the word the love
is so proud and real
you make me wanna go out and steal
i just wanna fuh you!
i just wanna fuh you!
