

Paul Oakenfold, Not Over

(feat. Ryan Tedder)
It's time to say goodbye
It's time to make a move
Nothing left to hide
Everything to lose
There's not a day I wake
Not a step that I take
When I don't see your ghost
I think you should know
It's time for both of us
To put aside our past
Looking forward now
Strong enough to last
There's not a night I sleep
Not a dream that I keep
If I don't see your face
It's you I can't replace
You're running through my mind
Baby all the time
It's not over yet
Deep inside my soul
This I know for sure
It's not over yet
It's running through my mind
Baby all the time
It's not over yet
Deep inside my soul
This I know for sure
It's not over yet
Every single night I'm dreamin of...
And every single day I'm thinkin of...
With every part of you I'm still in love
Don't say goodbye
'Cause it's not over yet
Not over yet
You're running through my mind
Baby all the time
It's not over yet
Deep inside my soul
This I know for sure
It's not over yet
It's running through my mind
Baby all the time
It's not over yet
Deep inside my soul
This I know for sure
It's not over yet
