

# Paul Oakenfold, Not Over

(feat. Ryan Tedder)

It's time to say goodbye  
It's time to make a move  
Nothing left to hide  
Everything to lose  
There's not a day I wake  
Not a step that I take  
When I don't see your ghost  
I think you should know  
It's time for both of us  
To put aside our past  
Looking forward now  
Strong enough to last  
There's not a night I sleep  
Not a dream that I keep  
If I don't see your face  
It's you I can't replace  
You're running through my mind  
Baby all the time  
It's not over yet  
Deep inside my soul  
This I know for sure  
It's not over yet  
It's running through my mind  
Baby all the time  
It's not over yet  
Deep inside my soul  
This I know for sure  
It's not over yet  
Every single night I'm dreamin of...  
And every single day I'm thinkin of...  
With every part of you I'm still in love  
Don't say goodbye  
'Cause it's not over yet  
Not over yet  
You're running through my mind  
Baby all the time  
It's not over yet  
Deep inside my soul  
This I know for sure  
It's not over yet  
It's running through my mind  
Baby all the time  
It's not over yet  
Deep inside my soul  
This I know for sure  
It's not over yet
