

Paul Simon, Oid

The first time I heard Peggy Sue
I was 12 years old
Russians up in rocket ships
And the war was cold
Now many wars have come and gone
Genocide still goes on
Buddy Holly still goes on
But his catalog was sold
First time I smoked
Guess what Paranoid
First time I heard Satisfaction
I was young and unemployed
Down the decades every year
Summer leaves and my birthdays here
And all my friends stand up and cheer
And say man youre old
Getting old
Old
Getting old
We celebrate the birth of Jesus on Christmas day
And Buddha found nirvana along the lotus way
About 1,500 years ago the messenger Mohammed spoke
And his wisdom like a river flowed
Through hills of gold
Wisdom is old
The Koran is old
The Bible is old
Greatest story ever told
Disagreements?
Workem out
The human race has walked the earth for 2.7 million
And we estimate the universe at 13-14 billion
When all these numbers tumble into your imagination
Consider that the lord was here before creation
God is old
Were not old
God is old
He made the mold
Take your clothes off
Adam and Eve
