

Paul Stanley, Everytime I See You Around

Do you remember when you said I was the only one
We'll watch the years go passing by
I never dreamed that with a love I thought had just begun
I'd ever hear you say goodbye

When we meet and I start smiling
I'm just lying through my tears
Baby

Everytime I see you with your arms around another
Everytime, my world comes crashing down
And it's all bittersweet
My heart skips a beat
Everytime I see you around

I go to places but it's not the way it used to be
I only picture you and I
My friends all tell me I can push you from my memory
There's only so much I can try

When I touch your hand to greet you
I'm not sure that I'll let go
Baby

Everytime I see you with your arms around another
Everytime, my world comes crashing down
And it's all bittersweet
My heart skips a beat
Everytime I see you

I find my way to a warm embrace
But I still think about you
How can somebody else take your place
When the things that I do bring me closer to you

Do you remember when you said I was the only one?

Everytime I see you with your arms around another
Everytime, my world comes crashing down
And it's all bittersweet
My heart skips a beat
Everytime I see you around
Baby

Everytime I see you with your arms around another
Everytime, my world comes crashing down
And it's all bittersweet
My heart skips a beat
Everytime I see you around
