Paul Van Dyk feat. Vega 4, Time Of Our Lives

There's a time for us to let go There's a time for holding on A time to speak, a time to listen There's a time for us to grow There's a time for laying low down There's a time for getting high A time for peace, a time for fighting A time to live, a time to die A time to scream, a time for silence A time for truth against the lie A time for faith, a time for science There's a time for us to shine There's a time for mixed believing There's a time to understand A time for hurt, a time for healing A time to run, and make a stand This is the time Of our lives...
