

# Paul Van Dyk, For An Angel

Lover (x11)

I found a lover for the first time in my life,  
You took me out of the wilderness,  
Just like a diamond, you were shining bright through the night  
And let me stay in your arms to rest

You give me love, give me love  
(you give me love, give me love)  
Sweet loving  
(sweet sweet loving)  
You're all that I've been dreaming of  
(You're all that I've been dreaming of)  
You're all that I need  
(You're all that I)

I found a lover to love, and that was ?all like you?  
I'll never love another, 'cause no one else will do  
I found a lover to love, and that was ?all like you?  
I'll never love another, cause no one else will do  
I never knew love like this before, give me more  
Everything I wanted, I found in you  
You make me feel so high, I wanna touch me sky  
Take my hands and fly with me

You give me love, give me love  
(you give me love, give me love)  
Sweet loving  
(sweet sweet loving)  
You're all that I've been dreaming of  
(You're all that I've been dreaming of)  
You're all that I need  
(you're all that I)

I found a lover to love, and that was ?all like you?  
I'll never love another, 'cause no one else will do  
I found a lover to love, and that was ?all like you?  
I'll never love another, 'cause no one else will do  
I found a lover to love, yeah  
I'll never love another  
I found a lover to love, to love  
I'll never love another, cause no one else will do  
No no, no one else will do  
No one else will do  
No one else will do
