

# Paul Van Dyk, Homage

I'll drown you in kisses

I know I miss so many magic memories

When I'm away from you I miss your touch, I miss your voice

I miss the way we unlock, the secrets through each other

There's only you I could love forever

(Chorus)

That's why I'm so lonely in a crowd

And all I think about is coming home to you

It's potter stuff and dreams, how we hunger for our time

I could never get enough of your sweet love

I know I miss so many magical moment

When I'm away from you I miss your touch, I miss your voice

I miss the way we unlock, the secrets through each other

There's only you I could love forever

(to Chorus)

I'll drown you in kisses...
