

Paul Van Dyk, That's Life

Life isn't made so everything is right
Life isn't made so everything is right
Life isn't made so it's always alright
But that is alright
Life isn't made what you have in mind
Life will not always be too kind
Sometimes you wonder what's really behind
What's really behind
But that is alright
Life isn't made so everything is right
Life isn't made so everything is right
Life isn't made so it's always alright
But that is alright
Life isn't made what you have in mind
Life will not always be too kind
Sometimes you wonder what's really behind
What's really behind
But that is alright
Life isn't made so everything is right
Life isn't made so everything is right
Life isn't made so it's always alright
But that is alright
Life isn't made what you have in mind
Life will not always be too kind
Sometimes you wonder what's really behind
What's really behind
Sometimes you wonder what's really behind
What's really behind
But that is alright
