Paul Van Dyk, That's Life

Life isn't made so everything is right Life isn't made so everything is right

Life isn't made so it's always alright

But that is alright

Life isn't made what you have in mind

Life will not always be too kind

Sometimes you wonder what's really behind

What's really behind

But that is alright

Life isn't made so everything is right

Life isn't made so everything is right

Life isn't made so it's always alright

But that is alright

Life isn't made what you have in mind

Life will not always be too kind

Sometimes you wonder what's really behind

What's really behind

But that is alright

Life isn't made so everything is right

Life isn't made so everything is right

Life isn't made so it's always alright

But that is alright

Life isn't made what you have in mind

Life will not always be too kind

Sometimes you wonder what's really behind

What's really behind

Sometimes you wonder what's really behind

What's really behind

But that is alright
